

Amazing Africa

Africa is a continent. A continent is land that is made of different countries. Sudan, Kenya and Gambia are some African countries.

Living in Africa

Some people live in small villages, but others live in big cities. Many houses are built with bricks, but some are built with wood. Some African children don't go to school because they have to work.

Weather

There are hot deserts, dry grasslands and tropical jungles in Africa.

The ground can be hard and dry. Sometimes food crops die when it doesn't rain for a long time. Some people in Africa don't have clean water to drink. People can get very ill if they drink dirty water.

Animals

Some of the fastest, tallest and biggest animals in the world live in Africa. Elephants are the largest land animal in the world, and giraffes are the tallest animal in the world. Some people hunt African animals, but other people work hard to keep the animals safe.
